REINFORCING RODWORKER

A Reinforcing Rodworker reinforces a wide variety of concrete constructions including but not limited to buildings, landscape features, parking garages, caissons, highways, bridges, wind turbines, stadiums and towers by using reinforcing steel, composite materials, welded wire mesh, post-tensioning systems and any other concrete reinforcements. Specifically, a Reinforcing Rodworker:

- cuts and bends reinforcing materials according to design specifications and drawings
- fabricates, pre-fabricates and installs reinforcing steel, composite materials, welded wire mesh, post-tensioning systems and any other concrete reinforcements.
- operates and maintains tools, aerial work platforms, forklifts and telehandlers
- prepares reinforcing and post-tensioning materials for hoisting
- rigs and hoists materials and equipment
- splices reinforcing steel by welding or installing mechanical splices
- installs, stresses and grouts post-tensioning systems

Reinforcing Rodworker is a trade regulated by the *Ontario College of Trades and Apprenticeship Act, 2009*. Qualified individuals may obtain a Certificate of Qualification, which confirms its holder has the skills, knowledge and experience that meet industry standards of practice for the trade.

In order to complete an apprenticeship training program in the trade, individuals must become members of the Ontario College of Trades (the College), and apprentices must remain active members for the duration of their apprenticeship.

Upon completing an apprenticeship, the Ministry of Advanced Education and Skills Development (MAESD) will issue an individual a Certificate of Apprenticeship. Upon passing the trade's certification examination and meeting the College's registration requirements, the individual may apply to become certified and registered as a journeyman in the trade.

In Ontario, the trade is part of the Interprovincial Red Seal Program—the national standard for the trade across Canada: www.red-seal.ca.

APPRENTICESHIP PROGRAM

An apprenticeship training program consists of on-the-job and in-school training. The program duration set in regulations for the trade of Reinforcing Rodworker is 4,000 hours (approximately two and a half years) consisting of 3,640 hours of on-the-job work experience and 360 hours of in-school training.

For detailed information about this program, see the apprenticeship training standard: www.collegeoftrades.ca/training-standards

ON-THE-JOB TRAINING

An apprenticeship involves practical training provided on-the-job by a skilled worker, or trainer. The skills or competencies to be developed are set out by the trade's Apprenticeship Training Standard and are recognized by the industry as being essential to the practice of the trade.

As these essential skills are developed, the apprentice's sponsor or trainer signs the relevant sections of the training standard to indicate that the apprentice has met the individual training objectives by demonstrating the skills required of a skilled worker, or journeyman, in the trade.

IN-SCHOOL TRAINING

A Reinforcing Rodworker apprenticeship includes two levels of theoretical training, which includes but is not limited to instruction in:

- applied trade practices and calculations
- interpretation of concrete reinforcing drawings
- pre-fabrication and fabrication of concrete reinforcing members
- installation and inspection of concrete reinforcing members
- rigging and hoisting
- post tensioning drawings, layout and modification
- post-tensioning installation, assembly and inspection

Depending on the training delivery agency, in-school training may be available in one of the following ways:

- block release (full-time, for a set number of weeks)
- day release (one day per week from September to June)
- part-time (night-school programs)
- alternative delivery (online, correspondence, etc.)

MAESD is responsible for reviewing and scheduling classroom training for apprenticeship programs established by the College.

For more information about in-class training, contact a local MAESD Apprenticeship Office: services.findhelp.ca/eo/tcu/appoff

APPRENTICESHIP – WHAT IS IT AND HOW DOES IT WORK?

Apprenticeship is a work-based training program for people who want to work in a skilled trade or occupation. It is also a post-secondary education pathway that provides access to well-paying jobs that require a high level of skill, judgment and creativity. Apprentices are paid while gaining work experience and their wages increase with their skill level. About 90% of apprenticeship training takes place in the workplace, while the remainder consists of theoretical instruction, usually obtained at a college of applied arts and technology or other approved training delivery agency. Apprenticeship training is delivered in partnership by the MAESD and the College. Training agreements between apprentices and sponsors are registered by the MAESD in accordance with legislation. Each individualized training agreement represents workplace training that the sponsor agrees to provide to someone who wants to learn a skilled trade.

ONTARIO COLLEGE OF TRADES – WHO ARE THEY AND WHAT DO THEY DO?

The Ontario College of Trades is the regulatory body for skilled trades professions in Ontario. The College enforces regulations that help protect the public and is committed to promoting the value of working with certified skilled trades professionals. The College also maintains a register of its members including the following membership classes: Journeypersons, Apprentices, Journeyperson Candidates, Tradespersons, and Employers/Sponsors. Individuals with registered training agreements must become members of the College's Apprentices Class and must remain a member in good standing with the College in order to complete the apprenticeship program. To learn more about the College, call toll-free 1-855-299-0028 or in Toronto, call 647-847-3000 or visit www.collegeoftrades.ca.

HOW DOES SOMEONE BECOME AN APPRENTICE?

The person finds a sponsor willing to ensure that he or she is provided with training according to the Apprenticeship Training Standard established by the College. A sponsor may be an individual, employer, third-party sponsor group, or any entity able to provide an apprentice with opportunities to learn the skills necessary to practice the trade. The person and the sponsor submit a completed Application for Apprenticeship to the local MAESD Employment Ontario office. MAESD staff will arrange a discussion to assess the person's eligibility for the program and the sponsor's ability to provide the required training. Staff will explain the roles and responsibilities of all parties involved in apprenticeship training, including the College, and register the training agreement, MAESD staff will also explain the classroom training options and, together with the sponsor, monitor the apprentice's progress during the program. For more information on becoming an apprentice, visit: www.earnwhileyoulearn.ca.

HOW LONG DOES AN APPRENTICESHIP TAKE TO COMPLETE?

Apprenticeships take two to five years to complete, depending on the trade. Prior education and related work experience are considered when determining the length of the program at registration. Flexible classroom training options are generally available to meet the specific needs of apprentices and their sponsors.

ARE THERE OTHER PATHWAYS TO APPRENTICESHIP TRAINING?

The Co-Op Diploma Apprenticeship program allows students attending college to receive apprenticeship training while earning a diploma. The Pre-Apprenticeship Training program helps unemployed individuals strengthen their skills and increase their eligibility for apprenticeship training in a specific skilled trade.

CAN A STUDENT START AN APPRENTICESHIP WHILE ATTENDING HIGH SCHOOL?

The Ontario Youth Apprenticeship Program (OYAP) allows high school students to participate in apprenticeship training while earning their high school diploma. Interested students should contact their guidance counsellor or technical teacher for more information.

DOES THE GOVERNMENT ENCOURAGE SPONSORS TO HIRE APPRENTICES?

The Ontario government provides the Apprenticeship Training Tax Credit to corporations and unincorporated businesses that hire apprentices in certain skilled trades, an Employer Signing Bonus to sponsors who register new apprentices in sectors in which skilled workers are in high demand, and an Employer Completion Bonus to sponsors whose apprentices complete their programs.

DOES THE GOVERNMENT PROVIDE FINANCIAL SUPPORT TO APPRENTICES?

Apprentices can benefit from the Ontario government's Apprenticeship Scholarship and Loans for Tools programs. Both the Ontario and the federal government offer grants during and at the completion of the apprenticeship program.

HOW CAN I LEARN MORE ABOUT APPRENTICESHIP TRAINING?

Visit the MAESD Employment Ontario website at www.ontario.ca/employment, call the MAESD Employment Ontario Contact Centre at 1-800-387-5656 or 416-325-4084 for service for the deaf, visit an Employment Ontario office or visit www.tcu.gov.on.ca.
